Run 1538 , Monday 31 May 2010

Hare: Weatherman - Location: Bicentennial Park Crest Park Pde Queanbeyan

Run report had been packed in a box. by a box packer. The box was delivered over internet and unpacked by a box unpacker, Surprise! Surprise! Check out what the box packer packed.

There was cause for concern when this particular Hare revealed the run had to be reset due to being washed away...

A definite highlight was being energetically (especially up hill) escorted by junior hashers 'push' bike extraordinaire.

The run offered plenty of opportunities to experience all perspectives of local Queanbeyan hills, both the up side and down side and up side and down side... and in addition to numerous playgrounds which provided unexpected yet welcome entertainment for some, Run 1538 was particularly eventful and played out in four distinct Acts.

After a short run up and down some introductory hills just to warm up, Act One was interrupted by two very curious young ladies who took great interest in this group of men running along and calling out bizarre things to one another. It remains to be seen if we have recruited two new hashers.

Act Two continued through the delightful suburban streets and concluded in a conveniently located Halt which provided an opportunity to test just how many hashers it takes to fix a broken bike chain. The answer? Not enough, as the chain remained broken and Gen Z was introduced to the literal meaning of 'push bike'.

Act Three was marked with a Drink Stop and the presence of chips was well received as always.

Act Four took the intrepid hashers across a local oval, complete with friendly young locals who provided quite the welcoming committee and very eager to comment politely on our activities.

After considering bonus points for entertainment factor and potato chips, and most importantly the reincarnation of Weatherman's dog, Run 1538 is awarded 6 points.
