

Capital Hash House Harriers – Run 2046 - PPs – The Return of Centrefold – Making Hash Grate Again

Hash must have known that Centrefold was reprising his glory days at the run tonight, with a magnificent pack of 23 for the run. The pack set off late, just a reminder of what hash was like before the harsh days of C&B. No GM or RA, but who needs them with Centrefold and Scarlett in charge. Everyone commented that they would love Centrefold to stay on as GM every week (well no they didn't, but they were thinking about it). I was asked by the PP's to make it a long circle (yes I did!!!) as they had only catered for the usual winter pack of about 10 and had to frantically make more nosh. A great night, with so many charges Sexchange ran out of Hash songs! Only topped off by PP nosh of Chili, chicken nugs and meatballs.

Run Report – Scarlett – Looked like it had been set by someone on a bike (it was). 5 runners turned into four when Infallible proved to be fallible otherwise not a bad run, score, a well-deserved 1.

Walk Report – KWhine – Loved the run, well-marked, not much whinging (only because by dobbing Centrefold in would have resulted in a down-down). Short and sweet, a good walk, score 8, but quickly vetoed to a 2 by the Acting GM

Returns – So many there were only about 5 hashers who weren't returnees

Charges

Scarlett – Taking a hit for the ACT Government yet again

Sexchange – Premature songulation

Infallible - for nearly the 20th anniversary of the infamous Christmas run of 1999

PP – Just because

So many others, but not recorded as I was having too much fun, but I do recall Greasy, COUNTERFEET, Pop Tart, Gerbils, Toy Boy, Betty Boop and others
